Double Retractable Awnings

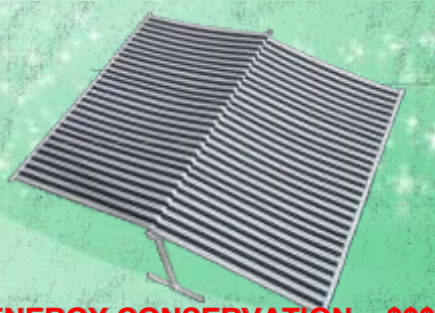

EXPAND YOUR LIVING SPACE

Enjoy your outdoor space more than ever with a Double Retractable Awning. Add beauty to your home and make your outdoor living space more livable.

Our free standing double-sided retractable awning system is designed for maximum shade coverage, perfect for terraces, patios, pools and decks. You can extend seating or retail space for shops and outdoor dining for restaurants. Our products are made to be maintenance free.

Our double retractable awning offers years of comfortable shaded space for your business or home.

ENERGY CONSERVATION = \$\$\$\$\$

Reduce your energy bills. The American Society of Heating and Air Conditioning Engineers show that an awning can reduce heat gain by 55%-65%. Retractable awnings are "green" products. They save energy costs by keeping the inside of your home extremely cooler. Conserved energy means conserved money \$\$.

Remote Control

Tubular Motor

Touch of a button technology is provided with premium quality tubular motors. 16 feet of electrical cord on each awning reaches most electrical outlets with no electrician needed, saving you money.

ALL MOTORS COME WITH A MANUAL OVERRIDE IN CASE OF POWER FAILURE.
