Retracting Awnings for Existing Structure or Custom Built

The Bella

Its semi-cassette design mounts flush against the wall or your home or business, for a sleek look when retracted. This extraordinary unit incorporates a patented tipping system. The Bella is a practical unit yet elegant addition that will last for years.

The Triumph

Looking for a bigger projection? The Triumph is a heavy duty retractable awning product. This unit is practical, yet capable of creating an elegant and durable living addition to any home when a larger projection awning is desired.

The Pinnacle

A retractable shading system that can be used individually or combined with multiple units. The Pinnacle also features a semi-cassette style housing that incorporates a brush to prevent debris from rolling up with the fabric into the unit.

Retracting Awnings for Existing Structure or Custom Built

Pergotenda™ & Gennius™ Water Tight Retractable Awnings

- Rainproof retractable roof system
- Integrated and optional rainwater management features
- 3 Ply PVC fabric blocks 100% of UV light, eliminates shadow lines of droppings and debris

- Manual or motorized operation
- Remote control options
- Optional zip screens or zip curtains with clear vinyl windows
- Integrated lighting and audio systems available

The Kubo self-standing aluminum Pergotenda®. The patented product features an exclusive design and key technical features, such as the eaves and drainpipes fully built into the structure. Modular and versatile, Kubo can now also be anchored to a wall, making it suitable for any type of context, even the most unique one.
